Hi Brian, it appears Brad Jennings is out this week, so I was just touching base to see if you know anything about the air sampling demo at Radford...is everything still on for sampling from the 19-30?

If you recall, we spoke about your research back in May of last year, and ATSDR is sending a couple of us to observe the sampling. Brad Goodwin and I are planning to be at the facility on the 27<sup>th</sup>, with a colleague from the Virginia Department of Health. We hope your team will be available and have some time to talk with us during the demo. Thanks,

Jill
